

Case Study

Policy Check & Compare AI

20x Faster policy comparisons for a large mutual insurance company

Challenge

In a complex regulatory landscape, managing policies with speed and precision is critical. Manual reviews averaged **200+ policy pages** per renewal, exposing teams to costly E&O mistakes.

Policy Checks

- Ensuring quote, binder, and policy alignment
- Extracting data for excess underwriting
- Maintaining compliance with regulations

Policy Comparisons

- Analyzing subtle differences in coverages and endorsements
- Responding to market and competitor changes quickly
- Equipping brokers with fast, meaningful comparisons

Solution

FurtherAI's **Policy Check & Compare AI** solution delivered cutting-edge capabilities, addressing the insurer's needs in two critical areas:

>20x Faster Policy Checks

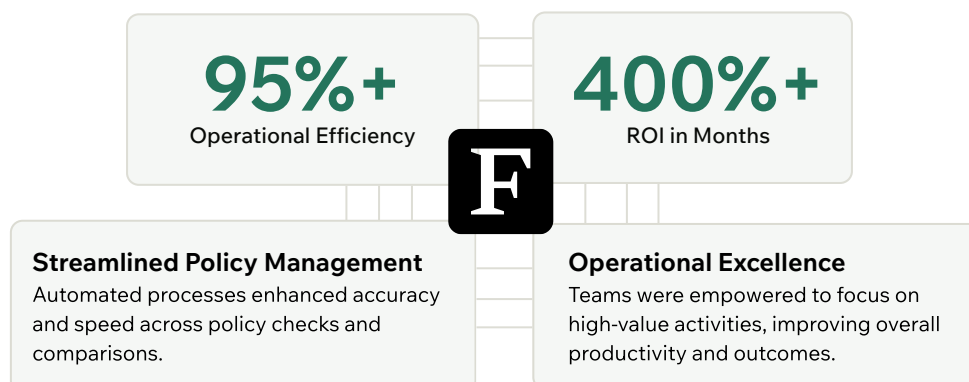

- Automated Data Extraction
- Compliance Validation
- Excess Insurance Underwriting

>30x Faster Policy Comparisons

- Accelerated Reviews (Side-by-side comparisons)
- Comprehensive Analysis
- Holistic Coverage Insights

Impact

FurtherAI's technology enabled the insurer to redefine how policies are managed, compared, and iterated, setting a new standard for efficiency and competitiveness in the insurance industry. The insurer achieved:

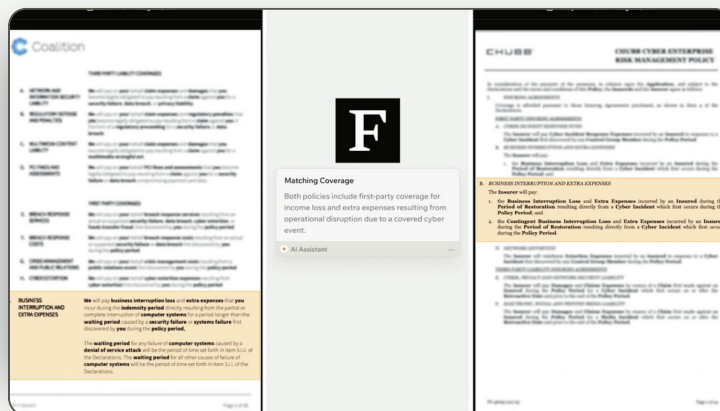

How it works

Policy Comparison done in minutes, not hours

Policy Comparison

Upload Docs	AI Extracts	Cross-Checks & Flags	Review & Share
Upload expiring policies, quotes, binders—any format, any length.	AI maps forms, endorsements, and declarations, line by line.	Gaps, carve-outs, and mismatched limits auto-flagged - 90% faster.	One-click citations take reviewers to the exact clause; export a shareable gap report.

Side-by-side policy comparisons now take minutes, not days.
— Director Product, Regional Insurer
